

TCAT Upper Cumberland Cost Sheet 2026-2027

Computer Information Technology

The Mission of the Computer Information Technology program is to provide technical training in computer operations that meet the occupational needs of local business and industry in computer related areas. The Computer Information Technology program is designed to provide students with first-hand knowledge of the software, hardware, and operations of personal computers used in business and industry. Many aspects of the personal computer including how it works, how data is processed, and how to apply the functions to solutions on the job are explored in the Computer Information Technology Program.
