MASONRY TECHNOLOGY

WE BUILD CAREERS.

TCAT
UPPER CUMBERLAND

PROGRAM DESCRIPTION

The Masonry program is composed of three major segments: block, brick, and stone laying. The first trimester covers the basic skills required to be an effective block or brick mason. The second trimester provides training and practical experience in laying various types and sizes of block. The third trimester is focused on brick and stone laying techniques.

OUTCOMES

- Students will develop proper safety practices and desirable attitudes such as good ethics and personal characteristics essential to job success.
- Successful completion of the first trimester will be the first exit point earning a masonry associate certificate.
- The focus of the second trimester is laying block. Logically, this skill is needed in most building projects. Successful completion of the second trimester will earn a blocklayer certificate.
- The third trimester student will work towards the Masonry Apprentice Diploma.
